

Fiche technique

Chemin de câbles MKS-Magic® 85 FT

Référence: 6059109

Chemin de câbles avec système de fixation rapide intégré La longueur utile des chemins de câbles est de 3 000 mm.

Le chemin de câble dispose d'une perforation latérale continue de 7 x 20 mm pour l'installation d'éléments de montage et de raccordement supplémentaires.

À partir d'une largeur de goulotte de 200 mm avec un pourcentage de trous de 30%, peut être utilisé dans des installations d'arrosage automatique selon la norme VdS 2092.

La liaison équipotentielle constante est garantie sans élément supplémentaire.
